

(Adapted by Ray Bruzan from a pattern obtained from Claire Smith [retired], Mills College, who discovered the original mole in an art store in Maine. Ready-made mole price list available from DeWayne Lieneman, 2509 59th St., Woodridge, IL 60517; (708) 810-0335.)

Mole Pattern

Suggestions

1. Make copies of the pattern available to students early in the school year.
2. Use any type of material for the body; brown, black, or gray fake fur is popular, but plaids, patterns, and a variety of colors are also interesting.
3. Choose a contrasting color felt for the feet and nose.
4. Stuff with polyester filler.
